### **Mack Technologies, Inc. Wins Top Honors At 2009 *Circuits Assembly* Service Excellence Awards – Marks 4<sup>th</sup> Consecutive Year of Recognition**

**LAS VEGAS, NV, March 31, 2009 – Mack Technologies, Inc.,** is pleased to announce that it has won the highest overall award at *Circuits Assembly* magazine's annual Service Excellence Awards. The ceremony was held last night at the IPC APEX trade show in Las Vegas. Service Excellence Awards are presented to companies that receive the highest ratings, as judged by their own customers, in the following categories:

- Manufacturing Quality
- Technology
- Dependability / Timely Delivery
- Responsiveness
- Value for Price

*Circuits Assembly* magazine acts as an independent third party to solicit direct feedback from contest entrants' customers to determine the competition results. Mack Technologies won the top prize in the grouping of EMS companies with annual revenues greater than \$100 million.

Mack Technologies has won Service Excellence Awards for four consecutive years, and has won the overall highest award for the last two years.

“Mack is honored to receive this award for the second year in a row” commented John Kovach, President of Mack Technologies, Inc. “Mack Technologies strives to create a corporate culture based on fervently supporting our customers, and we are pleased to be consistently recognized for this effort with favorable feedback from our customers in the *Circuits Assembly* magazine Service Excellence Awards. I would like to extend our gratitude for the business that our customers have placed with Mack. We plan to use our customers' feedback from this contest to further refine our operations and continuously improve our customer satisfaction. I would also like to thank all of our employees for their dedication to supporting our customers.”

This is the 17th year *Circuits Assembly* has sponsored the awards program, and Mack Technologies' fourth year of participation.

## **ABOUT MACK TECHNOLOGIES, INC.**

Mack Technologies is a leading provider of complex contract manufacturing services including printed circuit board assembly, electromechanical assembly, and full system assembly. Mack provides manufacturing solutions for original equipment manufacturers in the military, aerospace/avionics, medical, communications, and industrial controls markets.
