### **MACK TECHNOLOGIES WINS *CIRCUITS ASSEMBLY* SERVICE EXCELLENCE AWARDS**

LOS ANGELES, CA – March 20, 2007 – Mack Technologies won four awards in *Circuits Assembly* magazine's annual Service Excellence Awards competition last month during a ceremony at the APEX trade show in Los Angeles. *Circuits Assembly* magazine recognizes companies that receive the highest customer service ratings, as judged by their own customers. Mack Technologies participated in the grouping of EMS companies with annual revenues greater than \$100 million, and won awards for ranking the highest in the following categories:

- Manufacturing Quality
- Technology
- Dependability / Timely Delivery
- Overall Value

“Mack is proud to receive these awards because they demonstrate our intense focus and commitment to total customer satisfaction,” said John Kovach, president of Mack Technologies. “We are especially pleased that we earned positive customer feedback from customers of all Mack Technologies sites and industry segments. I would like to thank our employees for their continuous devotion to total customer satisfaction, which secured these awards for the second consecutive year.”

This is the 15<sup>th</sup> year *Circuits Assembly* has sponsored the awards program and Mack Technologies' second year of participation.
